COMPANY CAPABILITIES

Your Practice Deserves the Right Equipment Partner.

Buying, selling, or upgrading ophthalmic and optometric equipment shouldn't be complicated. At Arris Medical, we help professionals explore equipment solutions that fit their practice, clinical needs, and business goals.

Equipment solutions for eye care practices

Explore new and pre-owned equipment across retinal imaging, OCT, visual fields, slit lamps, tonometry, refraction, acuity systems, surgical microscopes, and instrument tables.

BUY & UPGRADE

Explore equipment options and discuss configuration, clinical workflow, space, and budget with the Arris team.

SELL & TRADE

Discuss selling or trading existing equipment as part of your practice's next equipment decision.

Product guidance. Practical next steps.

Ask about Optos Daytona and California, additional equipment categories, financing options, and service or warranty information. Exact terms and equipment details are confirmed individually.
